Cartagena, Colombia

Software Engineer

I am 28 years old and have a genuine passion for software development and emerging technologies. I continually challenge myself through personal projects that enhance my skills that you could see in my github profile. Additionally, I volunteer as a software developer for a foundation, where I apply and acquire further knowledge.

EXPERIENCE

Leader & Software Developer Voluntary

InkuA Foundation, ago. 2022 – Current

- Lead three software projects through their entire life cycles.
- Develop and maintenance a web service for InkuA Foundation's workforce.
- Train and mentor new software developer volunteers.
- Manage the talks on best practices, updates, and technological innovations as part of our team's continuous improvement project.
